Provide a Towel Project

(An Alternative Way to Help)

To Our Friends,

Do you, or your organization lack money to give, but are willing to help?

As many of you are aware, many social service agencies have experienced funding cuts in recent years. You may also be aware of the difficulties in fundraising especially when the public and businesses are experiencing financial issues themselves, and many want to help but find it difficult to give what they don't have.

The Safe Journey Board of Directors continually wrestles with fundraising issues and we recently identified a unique alternative to fundraising to supplement our budget and it will make it almost painless to help victims of domestic violence.

We are requesting the support of area adult and youth groups, clubs, organizations, churches, businesses, schools, colleges... ***to adopt supply items such as towels***, and then provide those supplies on a continuing basis.

Those supply items would greatly supplement our budget.

For example, if a club adopts the washcloth need, each member could bring a new or used washcloth to each club meeting.

Or perhaps if a church group adopts paper towels, each member could bring a roll or package of paper towels to each meeting.

In both cases, it wouldn't take long to make a meaningful dent in our never-ending need for those supplies that truly help victims of domestic violence and their children.

If you or your organization would like the list of needed items or you want to adopt an item, please call 814.438.2675

Your support is greatly appreciated!!!!!!
